Treasury Department, Office of the Secretary, Division of Research and Statistics.

PRICES AND YIELDS OF PUBLIC MARKETABLE SECURITIES ISSUED BY THE UNITED STATES GOVERNMENT AND BY FEDERAL AGENCIES

DECEMBER 1941

All prices shown in this statement are closing bid and ask quotations in the over-the-counter market as compiled by the Federal Reserve Bank of New York. Quotations for Treasury bills are on a bank-discount basis; quotations for Federal Intermediate Credit Bank debentures are on a yield basis; quotations for all other issues are on a price basis per hundred dollars of principal amount (excluding accrued interest) with price decimals representing thirty-seconds. Quotations for securities traded on a "when issued" basis (except Federal Intermediate Credit Bank debentures) are shown beginning with the first day such trading is authorized.

Yields are computed on the mean of bid and ask, except that, when the mean results in a fraction of a thirty-second, it is raised or lowered to the nearest even thirty-second. In the case of securities for which there is no ask price, yields are based on the bid price only. Yields are computed to delivery date on the basis of either a 360-day or a 365-day year, depending upon market practice with respect to each issue, and represent nominal annual rates compounded semiannually. When the price of a bond, note, or debenture is such as to result in a negative yield, the excess of price over zero yield is given in the yield column. Zero yields are indicated 0.00 if rounded from a positive yield less than 0.005 percent, and ½ if rounded from an excess of price over zero yield less than ½4. Whenever a negative discount arises on Treasury bills, a price is customarily quoted instead of a rate of discount; in this statement, a negative discount is indicated in the bid and ask columns by quoting the excess of price over a zero discount, while in the mean column, it is indicated by the abbreviation neg. Average yield or discount is not shown when both positives and negatives occur within the month. Average ask price is shown only when there is an ask with every bid quotation.

The status of the various securities with respect to the treatment of interest under Federal income taxes is indi

standing, are indicated by dashes.

¹ Excludes postal savings bonds.
¹ Bills having identical quotations throughout the month are grouped.
² Excludes: (a) Federal Housing Administration debentures and (b) Tennessee Valley Authority bonds issued "on the credit of the United States" and held by the Reconstruction Finance Corporation.
⁴ On Dec. 15, 1941, the 3% issue was called for redemption on Jan. 15, 1942, and the 2¾% issue on Mar. 1, 1942. Therefore, "Yield to maturity" is not shown beginning Dec. 15.

Issue dates are in parentheses. Debentures having identical quotations throughout the month are grouped.

Excludes issues completely held by Farm Credit Administration agencies.

Series A is callable on 30 days' notice at 100¼ on May or Nov. 16, 1942. Series B is callable on 30 days' notice at 101 on Jan. or July 3, 1942: at 100½ on Jan. or July 3, 1943. "Yield to call" is computed to that call date which gives the lowest yield, and is shown in this table only when it is lower than the "Yield to maturity."
